## THE STORY

OMY is the association of two Parisian designers: Elvire Laurent and Marie-Cerise Lichtlé. Collaborating together since their studies at Arts Décoratifs de Paris, they share the same artistic sensibility. OMY is their creative playing field to create joyful, graphic and intelligent products for the home, putting the family and friends at the heart of every collection. Continuously inspired by the world of fashion and design.

In creating the concept of the Giant XXL colouring roll, the brand's most iconic product, OMY has become a worldwide reference. Distributed in 65 countries, each collection is elaborated with every consumer in mind, from age 3 to 99.

Le Bracelet OMY is the natural continuation of this permanent search for new and innovative products that are both creative and fashionable.
